- Combination padlocks

We push to keep our customers happy by offering:

Great Quality: Our locks are of the highest quality in both parts and workmanship.

Superior Customer Service: Our customer service department is always ready to help either by phone, fax or through *Click And Chat* on our website.

Timely Delivery: We go out of our way to ship out orders in a timely manner. We know that delivering on time is essential in today's fast paced business environment.

Quick Turnaround: We keep our shelves well stocked and are ready to meet large quantity orders on most of our products.

US Assembled: Our locks are fully assembled in the US, thus ensuring that you get a high quality product that will last for years.

Stock-In Program: In order to meet the needs of our larger OEM customers we offer the stock-in program which guarantees that these customers will not have to wait to have their large orders filled.
